

Full Stack Web Developer

ABOUT NUTRITICS

Since Nutritics launched in 2013, we've quickly become a global leader in the provision of accurate and reliable nutrition management software. We aim to connect food information across the food supply chain so that businesses and individuals can make better informed decisions, driven by accurate and timely data. Nutritics adds value to thousands of forward-thinking businesses in 170 countries around the world across foodservice, food manufacturing, healthcare, education and elite sport. Our clients include the NHS, the English Institute of Sport, Manchester City Football Club, King's College London, Aramark, Compass Group, Leon Restaurants and Starbucks. By using Nutritics, today's professionals have the best tools available to help their clients make accurate, relevant and actionable food choices.

Nutritics produces a suite of cloud-based apps including a large fully-featured desktop application, a mobile app, 2 tablet based apps for food ordering and label printing and a public-facing API. We also have a suite of custom-built internal tools for database management, customer support, project management and more. All projects use **PHP/MySQL/JS/HTML/CSS**

ABOUT THIS ROLE

We are seeking 2-3 full-stack developers to join our growing team. All our hires start as full-stack devs but some later specialise on front-end or back-end development.

MAIN RESPONSIBILITIES

- Develop new features & functionality on our vast array of web apps.
- Review project proposals and contribute to the application design process.
- Work independently or collaboratively on new features, usability upgrades and database and query optimisations
- Upgrade our API's and implement 3rd party APIs to send and receive data
- Utilise and contribute to our in-house back-end framework "Spark"
- Investigate issues with the software and troubleshoot, debug and escalate as required
- Perform occasional data export and import tasks for the wider team via SQL queries and custom scripts
- Produce clean, efficient, logical & scalable code in line with our code formatting guidelines.
- Maintain simple and easy-to-read documentation and code comments.

IDEAL CANDIDATES WILL HAVE

- Excellent attention to detail and problem solving capabilities

- Ability to clearly communicate and explain complex concepts effectively
- A passion for app development and a start-up style work environment
- An excitement for detail-oriented work and high-quality finishing
- Expert knowledge of & experience with PHP
- Expert knowledge of & experience with MySQL
- Expert knowledge of & experience with plain JavaScript and AJAX workflows
- Expert knowledge of & experience with HTML/CSS
- Knowledge of Linux server systems is advantageous
- Relevant third level degree desirable, but not essential
- At least 4 years of experience in similar roles

MOST IMPORTANTLY

Being a people-focused Company, it's not just about your role. We are equally interested in you. Nutritics' core values are real – they are driven by our CEO and are strongly held by everyone working here. These values of Career Fulfilment, Honesty & Integrity, Respect, Customer First, Excellence, Drive and Personal Commitment allow us to retain and develop excellent staff. We want our team to look forward to coming to work every day and this drives our culture and outlook.

OUR BENEFITS

- 24 days annual leave (33 days including Public Holidays)
- Training & Development Programmes
- Sports and Social Club (with optional local gym membership)
- Extremely flexible working hours and locations with a focus on your work-life balance

WORKING WITH NUTRITICS GIVES YOU

- An excellent remuneration package and opportunity to scale
- An opportunity to shape the look, feel and functionality of the final products - see your code in use and making an impact
- A friendly work environment and diverse and positive culture
- An experienced technical peer group
- Access to on-going training & development

LOCATION & HOURS OF WORK

Nutritics head office is based in Swords, Dublin where you are provided a desk and relevant equipment. Working location is flexible and remote working from home can be accommodated (incl. post COVID) with work days split between home and the office. The office is an 8 minute drive from Dublin airport, and is well connected to Dublin City centre by the Swords Express and other bus routes. The candidate will be expected to work at least 37.5 hours each week. We operate a flexi-time

policy starting between 7-10:30am each morning and finishing between 3:30-7pm (core hours of 10:30am-3:30pm facilitate teamwork, meetings and collaboration)
