

Lead Systems Administrator (Contract based), Ireland.

ABOUT NUTRITICS

Since Nutritics launched in 2013, we've quickly become a global leader in the provision of accurate and reliable nutrition management software. We provide our software to thousands of forward-thinking businesses in 170 countries around the world in foodservice, food manufacturing, healthcare, education and elite sport. Our clients include the NHS, the English Institute of Sport, Manchester City Football Club, King's College London, Aramark, Compass Group, Leon Restaurants and Starbucks.

By using Nutritics, today's professionals have the best tools available to help their clients make accurate, relevant and actionable food choices.

YOUR MAIN RESPONSIBILITIES

- Developing a small geographic load balancing LAMP stack with nodes in Ireland, US & Australia
- Setting up a mirror server to host our API and to backup our primary server
- Tweaking our systems for best performance on a modern PHP application
- General maintenance of our servers including pro-active installation of latest security fixes etc

THE IDEAL CANDIDATE WILL HAVE

- Minimum 2 years experience working directly with a high-availability Linux/Apache /MySQL/PHP driven cloud-based application
- Minimum 2 years direct experience in load balancing and multi-server systems
- Must be confident with English language and have good communication skills
- Experience with Virtualmin control panel is desirable

MOST IMPORTANTLY

- 12 hours per week – flexible and ad-hoc
- Working remotely after initial training
- Independent work, reporting directly to the CTO
